DEPRESSION REIGNS AT ST. PETERSBURG

Imperial Family Advised to Remain In Their Palaces.

AWE-STRUCK AT DUKE'S DEATH

Council of the Empire Has Been Called to Meet in an Extraordinary Session to Consider the Situation—The Czar Is Overcome with Grief.

St .Petersburg, Feb. 18.—1:05 p. m.—Depression, like the shade of doom, seems to be hanging over the Russian Capital. Bells are tolling and the people in the streets are awe-stricken at yesterday's bloody crime. Every one seems to shrink before the contemplation of what may happen next. The tragedy struck deep in the heart of the perplexed and tried emperor and many who were unsparing in their criticism yesterday today have only expressions of sympathy for his unhappy lot.

The bitter cup, which, during the last year has been pressed again and again to his lips is once more filled to the brim and in almost pathetic words this morning he implores his subjects to pray for the repose of the soul of his murdered uncle.

Death is in the air, and no one knows where the next blow may fall, although precautions have been doubled in every direction for the preservation of the lives of the members of the imperial family and the ministers and the secret police are seeking out and arresting those known to be associated with the fighting organization. The authorities realize their impotency toward off the swift acts of terrorism, murder in the streets being possible at any instant. The only safety seems to lie in seeking refuge now behind palace walls and all the imperial family have been warned not to venture out.

Although only the official papers and the Grashdianan appear with black borders, the editorials of all of them are strangely sober. Some papers which in the past have been ready to law almost any charge at the door of Grand Duke Sergius, are drawing back before the prospect of the inauguration of a reign of terror, fearing that it may destroy the bright prospects of reform and lead to an era of repression. But even in the midst of universal deprecation of the crime the majority express the hope that after all the darkest hour always comes just before dawn. Among the revolutionaries, however, there is a sentiment of elation. They openly glory in the deed, proclaiming that it removes the most reactionary influence at court and also proclaim the general theory that in the absence of armed resistance only by the error can concession be wrung from the hands of the autocracy. According to their view any weapon is justifiable. As a matter of fact it is too early yet to say what the political effect will be. For the moment everything is at a standstill.

When 300 miles out from Vladivostok she lost her propeller and was carried by adverse winds and current into San Miguel bay. Her commander, Captain Simpson, went ashore in a small boat after the Carlisle had anchored to seek assistance and was lost sight of. It was feared that he had met with an acident, but he subsequently turned up on board of an inter-island steamship, which carried him to Manila.

This is the message of Governor White to the senate on Wednesday.

This is the message which was returned to the governor to supply a newspaper clipping which concerned his political backers, Governor-elect Dawson and United States Marshal Elliot.

Senator Caldwell, in making his charges on the floor, said Governor White was guilty of dividing with the secretary of state the fees of the latter office, in consideration of appointment. Governor-elect Dawson is the present secretary of state.

Caldwell also said a letter had been sent out from New York by a Charleston attorney offering to secure a reduction in license tax on foreign corporations in consideration of half the decrease secured by legislation. He asserted that White and Dawson were back of this letter.

Cornish in front of their home, snatched a $5,000 diamond brooch from Mrs. Cornish's throat, fired two bullets through the clothing of Cornish when he remonstrated and then escaped after an exciting race with a policeman in which several shots were exchanged, but so far as known without effect.

RUSSIAN ARMY TO ASSUME OFFENSIVE

Kuropatkin Concentrating Big Force Against Kuroki.

INCREASED ACTIVITY IN EAST

Russia Is Strengthening Her Forces in Manchuria—St. Petersburg Fears the Japanese and Chinese Bandits Will Cut Their Line of Communication.

Tokio, Feb. 18, 11 a. m.—According to reports from the Shakhe river, the Russians showing increased activity on both flanks and are strengthening their right. They also seemed to be concentrating a heavy force on their left in front of General Kuroki.

Suschun is the base of the late operations and it is estimated that the Russians there number six divisions.

The impression exists that General Kuropatkin is preparing to assume the aggressive. The weather is still unfavorable, but the the excessive cold will soon be over.

Chinese reports to the effect that General Kuropatkin is preparing to

GENERAL KUROPATKIN.

abandon the Shakhe river line and retire northward are discredited here.

The Russians shelled portions of Field Marshal Oyama's center and left on Feb. 16. On Friday the Russian cavalry in retiring from a recent attack upon Field Marshal Oyama's left halted at Liuchengfang.

St. Petersburg, Feb. 18.—1:30 p. m.—In diplomatic circles the opinion is quite generally expressed that yesterday's tragedy may be followed by the decision of the government to conclude peace. For some time despite the official attitude maintained by the government ther has been a growing appreciation of the difficulties of prosecuting the war in the midst of increasing complications at home and, as announced by the Associated Press, the matter will be the subject of a formal consideration by the emperor and his ministers Feb. 16. Strong influences which, it is understood, in spite of denials, are headed by M. Witte, president of the committee of ministers, have been working quietly in this direction. Major General Grippenburg's statements followed by the murder of Grand Duke Sergius in the opinion of some of the ablest diplomats are not unlikely to lead the emperor definitely to decide upon peace. In this connection the war office is considerably alarmed by the new danger threatening the Manchurian army from the systematic attempts making by Japan and Chinese bandits to cut the line of communications back of the army. According to reports about 10,000 men split up into bands of several hundred each and are operating from Mongolia, and are attacking the railroad. The Russian detachment following up the Japanese band which had cut the road below Harbin, fell into an ambuscade of two regularly organized Japanese regiments and was almost cut to pieces, losing half its men and one gun.

The fear is that if the bands move further north or west they might interrupt communication to such an extent as to make it impossible to supply the army. This danger has already compelled the triple reinforcement of the railroad guards below Harbin.

SUNDAY WAS BIG DAY AMONG GOD'S PEOPLE

Florida Winter Bible Conference Closes Successful Session.

SERVICES AT THE CHURCHES

Pulpits of the Methodist and Baptist Churches Filled by Visiting Ministers and Sermons Were Very Fine—Two Services at the Tabernacle.

Sunday was the greatest day religiously that Gainesville has ever known. The spirit of the Bible Conference pervades every home. The great number of strangers have added to the religious interest. The executive committee of the Conference acknowledged that more had been accomplished in two years than they expected possible in five years.

Dr. J. F. McKinstry, Jr., spoke at the evening service for a few moments on behalf of the executive committee. He spoke of the great work accomplished by the Conference, not only in its moral and religious effect, but in its great benefit to the financial interests of the city. He said that property had advanced in the past two years 30 per cent. The most expensive houses in the city have been erected and more than twenty are now under construction. His praise of Dr. Strouse and his noble work met a hearty response from the great audience. He said that if the city ever erected a monument it should be to Dr. Strouse.

At the Churches.

Sunday morning the pulpits of the city were filled by the Conference speakers. Dr. William Lunsford preached a strong sermon on "The Power of Prayer" at the Methodist church. Dr. Lunsford has been one of the most attractive speakers at the Conference and is a deep, spiritual teacher of the Word of God. The Rev. D. Sullins, D. D., L. L. D., filled the Baptist pulpit. He preached on "Triumphant Grace." From all accounts, the highest tide of the Conference was reached at this service.

Dr. Blackstone's Talk.

In the afternoon quite a large crowd gathered at the auditorium. After an enthusiastic song service and an impressive solo by Mrs. Lunsford, and prayer, Dr. Blackstone delivered the lecture of the hour. He took for his theme, "The Word," Isaiah 66:2: "But to this man will I look, even to him that is poor and a contrite spirit, and trembleth at my word." He said: "It is the Bible that has given us our hope; it is the Bible that has drawn us here this afternoon; it is the Bible that has been the theme of our study and contemplation during the past two weeks. In our text it speaks of a man that is poor, of a contrite spirit, and that trembleth. Humility is one of the very first conditions to a proper approach to the Word of God. There is a great difference between humility and diffidence. The man or woman that says they cannot speak for God or cannot witness for Jesus is diffident and not humble. Diffidence is born of pride; humility comes from the very throne of God. Note it is the Word of God, and not simply the word of Moses, or Isaiah, or Paul. Such expressions as 'This is the Word of the Lord,' 'The Lord spake and said,' etc., occur 3,808 times in the Bible. The Bible is composed of sixty-six books, written by forty-two different writers, and yet there is such a marvelous unity in the whole that you can take proof texts from almost every book in the Bible for any of its great subjects. Suppose that a sculptor in Norway should carve from a block of marble a beautiful hand, and another sculptor in Italy should carve a head, and another in France a foot, and so on throughout forty-two different places in Europe parts of a statue should be prepared, and when all were brought together should unite in one perfect and symmetrical statue, would we say that these forty-two sculptors had acted on their own initiation? No, indeed! We would at once conclude that one supervising sculptor had directed each in the part they had formed. Just so we conclude that holy men of God have written the Bible as they were moved by the real author, the Holy Ghost."

Dr. Blackstone showed the superiority of the Bible to any of the other books of the great religions of the world. It begins with the prophecy that "The seed of the woman should bruise the serpent's head." Abraham was told that his seed should be evilly entreated in a strange land 430 years, and in Ex. 12:41 it is recorded that they came out on the self-same day. The Bible prophesys the rise and destruction of nations—Moab, Edom, Assyria, Babylon and others are notable incidents. Twenty-five different prophecies were literally fulfilled on the day of crucifixion—like "Riding on a colt," Zech. 9:9; the cry on the cross, "My God, My God!" Psa. 22:1. And lest the skeptic should say there was collusion, we have the "Gall and vinegar," Psa. 69:21; the "Reviling and wagging of heads." Psa. 109:25; the "Parting of garments," Psa. 22:18, in which His own enemies literally fulfilled the Scriptures. And, as if to forestall every objector and critic, we have the thirty pieces of silver and the purchase of the potter's field, in which the chief priests and elders themselves so marvelously fulfilled the words of their own prophet, Zech. 11:12, 13. This same Bible tells of a future restoration of Israel, of the destruction of all Gentile government, of a return of Jesus, and a literal Millenial reign for a thousand years. "And, Oh, what a comfort are the assured promises of this blessed Bible to those who have accepted God's free salvation provided in the atonement of Jesus. May we all go home from this Bible Conference with a better knowledge of the richest of God's grace and a deeper love for this wonderful letter from heaven, our Mother's Bible."

Dr. Strouse's Sermon.

The closing service in the evening was conducted by Dr. Clarence B. Strouse, the much beloved president of the Conference. As was expected when he was announced to speak, the greatest audience assembled during the Conference was present.

After a beautiful solo by Mrs. Munford and the short talk by Dr. J. F. McKinstry, Dr. Strouse rose to speak. He is undoubtedly a master of assemblies. Before he had spoken three minutes, he had the riveted attention of the vast audience. He took for his theme, "The Dulling of Moral Responsiveness." The congregation was so absorbed from the very first sentence that they found themselves at the wonderful ending without a note. It was a most powerful and convicting address. No other of the kind has been given. It was an appeal to act upon the wonderful truths of God as they were realized.

At the close of the sermon, the meeting was given an evangelistic turn, and the most remarkable scene ever witnessed in this city occurred. More than one hundred came forward, filling all the space at the altar and before the platform, nearly everyone of whom accepted Christ as a personal Saviour. This wonderful service was the seal of God upon the great work of the Bible Conference.

Mrs. Strouse sang a very beautiful solo at the after-service.

The Christian Workers' Institute opens Tuesday afternoon, and the Florida Winter Chautauqua will be opened by Rev. Sam P. Jones, March 1st. The strongest program ever given in Florida is announced.

The program of the Christian Workers' Institute will begin this afternoon at 3 o'clock with a lecture by Miss Cartwright, a great Bible student of Tennessee. There will be only one service each day during the present week, 3 p. m., to which a cordial invitation is extended to the public.

OLD AGE

Depends Not Upon Years, but Upon Vital Force.

A GREAT DISCOVERY TO WARD OFF OLD AGE.

In Gainesville lately there has been a good deal of discussion in regard to old people. Some at 50 years call themselves old, and really appear so; while others at 70 years seem active, vigorous and young.

A reporter of The Sun happened in the store of W. M. Johnson, our local druggist, the other evening, and this subject was brought up. Said Mr. Johnson: "It is a fact, and we see it illustrated every day right here in Gainesville; it is not years—old age does not begin at any set time—but it is loss of vital force that makes a person old. Weakened digestion, thin blood and poor circulation soon start functional powers and vitality on the wane, and then the symptoms of old age quickly appear. You know a man is as old as he feels.

"On the other hand," continued Mr. Johnson, "that old feeling may be warded off, and I wish every person in Gainesville who feels old, whether they are so in years or not, would try the great discovery, Vinol. I know that it has vital principles which will in a natural manner strengthen digestion, assimilation and all the functional powers, send rich, red blood coursing through the veins, and give new life to every organ of the body, and this is what makes the old feel young again."

Mrs. H. W. Avery of Norwich, N. Y., writes:

"At the age of 89 I felt the need of a tonic, something to strengthen and build me up. For a year and a half I have taken Vinol, and I have found that it brings vigor and life to the aged as nothing else will."

Mrs. Sarah J. Windrom (cousin to the late United States President, Zachary Taylor), 429 West Erie street, Chicago, who is 76 years old, says Vinol is a godsend to old people. So also does Mr. George L. Jones, Sr., of 19 Perrine Ave., Jersey City, and A. J. Baker of 713 Locust street, Evansville, Ind.

Vinol repairs worn tissues, checks the natural decline and replaces weakness with strength. It is an ideal body builder for old folks.

We promise you that Vinol is, first of all, agreeable, because it contains no fishy oil. Second, that it is a genuine cod liver medicine, containing all the medicinal curatives and strength-making elements taken direct from fresh cod livers; and third, we will return your money if it does not do exactly what we claim for it. W. M. Johnson, druggist.

Itch—Ringworm.

E. T. Lucas, Wingo, Ky., writes, April 25th, 1902: "For 10 to 12 years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable. I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liniment cured me permanently. Since then I have used the liniment on two separate occasions for ringworm and it cured completely. 25c, 50c and $1 bottle. Sold by W. M. Johnson.

Health of American Women

A Subject Much Discussed at Women's Clubs—The Future of a Country Depends on the Health of Its Women.

Mrs. T. C. Willadsen *Miss Mattie Henry*

At the New York State Assembly of Mothers, a prominent New York doctor told the 500 women present that healthy American women were so rare as to be almost extinct.

This seems to be a sweeping statement of the condition of American women. Yet how many do you know who are perfectly well and do not have some trouble arising from a derangement of the female organism which manifests itself in headaches, backaches, nervousness, that bearing-down feeling, painful or irregular menstruation, leucorrhœa, displacement of the uterus, ovarian trouble, indigestion or sleeplessness? There is a tried and true remedy for all these ailments. Lydia E. Pinkham's Vegetable Compound has restored more American women to health than all other remedies in the world. It regulates, strengthens and cures diseases of the female organism as nothing else can. For thirty years it has been curing the worst forms of female complaints.

Such testimony as the following should be convincing.

Mrs. T. C. Willadsen, of Manning, Ia., writes:

Dear Mrs. Pinkham:—

"I can truly say that you have saved my life and I cannot express my gratitude to you in words. For two years I spent lots of money in doctoring without any benefit for menstrual irregularities and I had given up all hopes of ever being well again, but I was persuaded to try Lydia E. Pinkham's Vegetable Compound and three bottles have restored me to perfect health. Had it not been for you I would have been in my grave to-day."

Miss Mattie Henry, Vice-President of Danville Art Club, 429 Green St., Danville, Va., writes:

Dear Mrs. Pinkham:—"Many years' suffering with female weakness, inflammation and a broken down system made me more anxious to die than to live, but Lydia E. Pinkham's Vegetable Compound has restored my health and I am so grateful for it that I want every suffering woman to know what Lydia E. Pinkham's Vegetable Compound will do for her."

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating, (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. No other medicine in the world has received such unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any other medicine, for you need the best.

A light heart, a cheerful countenance, and all the charms of grace and beauty are dependent upon proper action of the bodily organs. You cannot look well unless you feel well.

Mrs. Pinkham invites all sick women to write her for advice. Her advice and medicine have restored thousands to health. Address, Lynn, Mass.

GAINESVILLE GETS INCREASE OF $15,000

This Insures $50,000 for Construction of Public Building.

MORE MONEY IS NEEDED

For Such a Building as the Officials and People Desire, and Senator Taliaferro Will be Appealed to To Work for Increase.

Senator H. H. McCreary, Dr. J. F. McKinstry, Jr., Hon. Henry S. Chubb, receiver of the United States land office, and officials of the Gainesville Board of Trade have received letters from Hon. Robert W. Davis, member of Congress, giving the very welcome information that the omnibus public building bill contained an item of $15,000 increased appropriation for the Gainesville public building.

It was Congressman Davis who introduced in the House of Representatives a bill carrying $50,000 increased appopriation, which was recommended by the Secretary of the Treasury. When the bill was finally considered by the committee the government architect intimated that $15,000 additional would complete the public building, making it a two-story structure, with sufficient space to accommodate the postoffice and the United States land office. This last appropriation will make a total of $50,000.

The people of Gainesville and Alachua county are under greatly renewed obligations to Congressman Davis for his earnest and loyal work which he has performed in the interests of these people. The people of Gainesville can also see the value of a good, live board of trade, for when the matter of increased appropriation was discussed the Gainesville Board of Trade called a special meeting and by a unanimous vote sent a special representative in the person of Col. Chubb to Washington to consult with the Senators and Congressmen and co-operate with them.

When the bill goes to the Senate, the people do not doubt that Senator Taliaferro will, through his earnest work and influence, increase this appropriation largely, as it is well known our Junior Senator is one of the most influential representatives in the South, and is ever vigilant in the interests of his constituents.

Senator McCreary, Dr. McKinstry and others will take up the matter with Senator Taliaferro, asking for his hearty support of the measure.

Attention, K. of P.

The regular weekly meeting of Mt. Vernon Lodge No. 20, Knights of Pythias, will be held at the castle hall this evening at 8 o'clock, at which a full attendance is desired. Visiting brothers will receive a cordial welcome.

Neuralgia And Other Pain.

All pain in any disease is nerve pain, the result of a turbulent condition of the nerves.

The stabbing, lacerating, darting, burning, agonizing pain that comes from the prominent nerve branches, or sensory nerves, is neuralgia, and is the "big brother" of all the other pains.

Dr. Miles' Anti-Pain Pills rarely ever fail to relieve these pains by soothing these larger nerves, and restoring their tranquility.

Dr. Miles' Anti-Pain Pills leave no bad after-effects, and are a reliable remedy for every kind of pain, such as headache, backache, stomachache, sciatica, rheumatism and neuralgia.

They also relieve Dizziness, Sleeplessness, Nervousness, Car-Sickness, and Distress after eating.

"For many years I have been a constant sufferer from neuralgia and headache, and have never been able to obtain any relief from various headache powders and capsules, until I tried Dr. Miles' Anti-Pain Pills. They always cure my headache in five minutes time." FRED R. SWINGLEY, Cashier 1st Nat. Bank, Atkinson, Neb.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 doses, 25 cents. Never sold in bulk.

FAREWELL SERMON.

Delivered by Rev. Joseph Sherouse to K. of P's on Sunday.

On Sunday evening Rev. Joe Sherouse, pastor of the Advent Christian Church in this city, delivered his farewell address to his congregation, previous to his departure for Jacksonville, where he has accepted a call.

The occasion being the 41st anniversary of the founding of the order of Knights of Pythias, upwards of 40 of the fraters responded to an invitation to be present and listen to an address on "Pythianism," which was of interest to those not members of the order equally as well as the most active fraternal worker. Being an enthusiastic Knight and well posted in all the teachings, the speaker was able to talk most interestingly, and taking the motto, "Friendship, Charity and Benevolence," he gave the true meaning of each word as applied to the order. His illustration of the word Charity, showed that the interpretation should not be put upon it as meaning giving of alms, but having charity for the shortcomings of your fellow-men. He said the Knights of Pythias started in Washington, D. C., in 1864, with about half a dozen members, it now numbering 600,000 members in the United States and Canada.

At the conclusion of his remarks Rev. Sherouse said that as he expected to leave for Jacksonville early Monday morning, he would step in front of the altar and shake hands with all who desired. All present, including the Knights, improved the opportunity, and Marcus Endel, on behalf of Mount Vernon Lodge, extended the best wishes of every member to the departing brother, in a few well chosen words. The scene was very touching and showed in what high esteem the brother is held in Gainesville.

Besides the Knights of Pythias, Bro. Sherouse has many friends in the Odd Fellows' Order and the membership of the church who dislike to part with him, and all unite with The Sun in wishing him a hearty Godspeed in his new field of labor.

When You Have a Cold.

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This Remedy liquefies the tough mucous and causes its expulsion from the air cells of the lungs, produces a free expectoration and opens the secretions. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment, and it leaves the system in a natural and healthy condition. It counteracts any tendency toward pneumonia. For sale by all druggists.

IN THE MAYOR'S COURT.

Moses Bryant, Slashed by William Bell, Had to Pay the Costs.

"It's hard to be carved up by a nodder nigger and made ter lie up in bed fer more'n a week, but it's harder still ter have ter pay de cos'," remarked Moses Bryant Monday morning, when he walked away from the mayor's court after having compromised a case upon the payment of $6.75 and costs, aggregating $10, in which he got considerably the worse.

It will be remembered that William Bell and Moses Bryant a few days ago became involved in a difficulty, the bone of contention being, apparently, William's wife. William concluded that Moses was "hanging around" his home and his family too much, and when he went to his home and found Bryant there he ordered him to leave. An altercation followed in which Bryant was carved to such an extent he was compelled to go to bed. The evidence went to show that Bryant was not exactly in the right. Hence the fine.

John Walker, for being drunk, was fined $2.50 and costs.

Private fortunes have increased so wonderfully in the last ten years that the rich man of a decade ago is in only moderate circumstances today, judging his fortune by the present standard, but the number of millionaires willing to be assessed as such declines each year. In a year or so we may expect to be without a millionaire in the country at assessment time.

FOR THE SCHOOLS.

In an editorial comment The Daily Capitol of Tallahassee pays the following compliment to the high officials of our State schools, who are well known in Gainesville, having resided here for several years, and labored in the school work here most zealously:

"It is a source of much pleasure to note the handsome manner in which Florida's new State Superintendent of Public Instruction, Hon. W. M. Holloway, is measuring up to the important requirements of his office. Mr. Holloway and his very capable assistants, Mr. McIntosh and Miss Hampton, are proceeding like veterans in the execution of the department work and it is already clear that the educational interests of the State have been placed in hands which will work for and attain intelligent progress and healthy development of the public school system."

The schools of Florida are the foundation of its substantial growth, and to those who give their lives to this work the highest praise is due. The only feature about this branch of the State's advancement that is to be deplored is the meagre salaries paid those who devote themselves to the work of teaching. Besides possessing a sound body and mind, those who would become teachers must devote years of study and acquirement to their profession.

After at least a dozen years of application to fit themselves for teaching, it seems a very discouraging outlook to be compelled to start out at a salary that would cause a day laborer to go on a strike, yet such is the fact in many instances, and it would seem that some method might be employed in localities where the schools are small to have them centralized and thus increase the pay of the teachers by lessening the number of schools.

NO TARIFF CHANGE.

It is claimed that, according to the principle enunciated by the Attorney-General, there will be no necessity for any change in the Dingley tariff law. A correspondent in The New York Tribune explains: "Whether the proposed extensive granting of drawbacks will have the effect of curtailing the revenues to an extent which will render tariff readjustment imperative, it is impossible to determine at this time. The legal proposition set forth by the Attorney-General is that the section of the Dingley act which provides for drawbacks and declares that the imported material 'shall so appear in the completed articles that the quantity or measure thereof may be ascertained' may be so construed that the term 'appear' shall mean 'that knowledge which comes to the mind as a result of evidence as well as knowledge derived from the exercise of the senses.' The Attorney-General further says: 'In my opinion, where it is proposed to export a product manufactured in the United States from a combination of domestic material and foreign material which has paid duty, and customs officials can identify the foreign material and can ascertain to their satisfaction by the evidence of books of accounts or otherwise the quantity or measure of foreign material actually present in the completed article, the exporter is entitled to receive a drawback of 99 per cent of the duties paid upon the imported material thus ascertained to be present in the completed article.'"

One of the lowest specimens of humanity—and there is a question as to his being human—has been bounced from the Jacksonville fire department. We refer to Croft, the viper who swore he had been on intimate terms with May Brown, the unfortunate girl killed by her betrayer last week. Both Croft and Loadholtz should be despised by all.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

THE COTTON CROP.

The future of cotton, which seems to be causing much newspaper talk at the present time, will not be solved so long as cotton raising is as profitable as it is at present, unless the conclusion reached is that there will be no restriction in the amount raised. With a lower price will come improvements in its cultivation, which will make the yield larger, so it still can be produced at less cost.

Perhaps there may be a change in the labor employed, as the importation of foreigners would have some effect on the work. In the large gardens of the North the Polander furnishes much of the labor, and although many of them might wish to own small farms of their own, when employed for large concerns they make most excellent hands, being ambitious to earn all they can, in the hope that they may lay by something for the future.

With the cheap price for lands in many parts of the South, and half the cost of living that these thrifty foreigners have to pay out in the North, their frugal methods will soon bring them in possession of comfortable homes, and they will be able to produce cotton, as well as other crops, as cheaply as in any other portion of the world.

By the time the Senate gets through with throwing out the testimony of the Judge Swayne case taken in the House investigation of the matter, there will be an opportunity left to enter a plea of "no cause for action."

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. SAD DROWNING ON LEVY LAKE

Roy Emerson and a Visiting Relatives Victims of Sad Fate.

BOTH BODIES WERE SECURED

After a Search of a Few Hours—Went Fishing Early Saturday Afternoon, and When They Did Not Return Relatives Became Alarmed.

From Monday's Twice-a-Week Sun.

Information has reached this city of a sad drowning at the Underhill place, Levy Lake, near Kirkwood, in which Roy Emerson, twenty years old, son of A. H. Emerson, and R. B. Dean of Anderson, S. C., seventy years of age, a relative of the Emersons, who was visiting the family at Kirkwood, lost their lives.

From the best information obtainable at this time Messrs. Emerson and Dean left the Emerson home early Saturday afternoon for a fishing trip. They drove to the Underhill place, where they secured a boat. As the shade of evening folded to its bosom the dying day, the gentlemen did not return. Supper at the Emerson home was postponed on account of their failure to arrive, and about 8 o'clock Mr. Emerson became uneasy at the continued absence of his son and relative, and began a search, which resulted in finding the boat only a few yards from shore, filled with water. In the boat were the poles used by the fishermen, the poles used by Mr. Dean being broken. This explained the story that both men had fallen victims to a watery grave.

Mr. Emerson was naturally deeply distressed at this discovery, but he secured assistance and began at once a search for the bodies, both of which were recovered. The body of Mr. Dean was dragged first, about midnight, while the body of young Mr. Emerson was discovered two hours later. They were taken to the home of Mr. Emerson, accompanied by the distracted father and a few sorrowing friends. The body of Mr. Dean was embalmed and shipped to his home in South Carolina. The burial of the young man took place at Micanopy cemetery yesterday.

The drowning occurred in about six feet of water, and only a few yards from shore. Judging from the position of the boat, which was not upturned, and the broken fishpole, it is supposed that in attempting to pull in a fish the pole gave way, throwing the occupants into the water; or it may have been that in his attempt to save Mr. Dean, young Emerson went overboard. Neither could swim, with the result that both were drowned. When discovered the bodies were on opposite sides of the boat.

Roy Emerson was the eldest son of Mr. and Mrs. A. H. Emerson. He was a young man of noble character, popular among those who knew him, and his sad and sudden death has cast a gloom over the entire community. The sympathy of The Sun and other friends is extended to the distracted parents. Mr. Dean was also a magnificent gentleman, and during his visit at the Emerson home made many friends who greatly deplore his misfortune.

INHERITED SCROFULA

When a child I had a very severe attack of Diphtheria, which came near proving fatal. Upon recovery the glands of the neck were very much enlarged, and after the free use of iodine, the right one was reduced to its normal size, but the left one continued to grow—very slowly at first, until it was about the size of a goose egg, which began to press on the windpipe, causing difficult breathing, and became very painful. An incision was made and a large quantity of pus discharged. The gland was removed, or as much as could with safety be taken out. For ten years I wore a little piece of cloth about an inch long in my neck to keep the place open. During this time I had to have it cut open by the doctor every time I took cold or the opening clogged. In the Spring or early Summer of 1884 I was persuaded by my wife to use S. S. S., which I did, strictly in accordance with directions. I took twenty-six large bottles, and was entirely cured, for I have not suffered since that time. B. S. RAGLAND.

Death of a Good Lady.

The Sun regrets to chronicle the death of Mrs. M. Cellon, which occurred at the home of her son, George Cellon, North Garden street, this city, Sunday afternoon at 1 o'clock.

Deceased was 86 years of age, and has resided in this county, principally in the vicinity of Hague, where she has reared a large and industrious family. She was a noble, Christian lady, and until rendered inactive by age was an earnest and active worker in the church. The remains were shipped to Antioch for burial.

The Sun, with other friends, extends sympathy to the family in this their hour of deep bereavement.

Grave Trouble Foreseen.

It needs but little foresight to tell that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women." Sold under guarantee by all druggists at 50c a bottle.

FAMOUS DOCUMENT'S HISTORY.

Story of the Declaration of Independence and Its Signers.

Washington, Feb. 20.—Colonel William H. Michael, chief clerk of the state department, by order of congress, has published a book giving an illustrated history of the declaration of independence, with the biographies and portraits of the signers and the secretary of the congress.

The advance copies of this work have been received at the department. The illustrations include not only photographs of the famous state paper in its present decayed condition, but also a number of photographs taken when the document was in a better state of preservation. The volume was prepared primarily as an aid to those in charge of the exhibit of the department of state at expositions in explaining that part of the exhibit relating to the declaration of independence. The series of portraits of the signers is complete and there is an interesting fac simile of the broadside copy of the declaration as signed by John Hancock, president of the congress, for and on behalf of the members of the congress, attested by Charles Thomson, secretary. Especially interesting is the correspondence relating to the declaration which is given. Because of the historic value of the work of Colonel Michael, congress ordered the book printed as a government publication.

Perfect Confidence.

Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Basford of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy, for I have used it with perfect success. My child, Garland, is subject to severe attacks of croup, and it always gives him prompt relief." For sale by all druggists.

COOLNESS AVERTS PANIC.

Theater Audience Calmly Leaves the Burning Building.

New York, Feb. 20.—E. L. Popper, head usher at the Newark theater, on Market street, Newark, N. J., just before the close of the first act of "Way Down East," last night, discovered smoke in the cellar in the front part of the building. The theater was crowded, all the seats in the orchestra, balcony and gallery being occupied. The usher at once informed Manager Lee Ottolengui, who went to the back of the stage and summoned Fireman Lavery, of No. 13 engine company, who was on duty.

Lavery followed Ottolengui, and they found fire blazing among the beams under the floor of the main lobby entrance. Lavery turned on a stream from an extinguisher, without effect.

"It's defective insulation," he said, "and I will have to send in an alarm."

"Give me a minute or two," said Ottolengui, "so that I can clear the house without a panic."

The manager waited one minute until the curtain was rung down on the act, then went before the audience.

"Ladies and gentlemen," he said calmly, "smoke has been discovered somewhere in the building. There is no danger, but we haven't been able to trace its source. For precaution's sake we have decided it best to clear the theater. Please leave quietly. There is absolutely no cause for alarm, so kindly be as orderly as possible."

The audience was calm under the inspiration and example of Ottolengui, and moved in orderly fashion towrad the doors.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's or Bucklen's remedies, as all others are mere imitations. H. E. BASEBALL TOMORROW.

An Exciting Game is Anticipated Between College Teams Here.

The game of baseball to be played in this city between East Florida Seminary and the University of Florida promises to be a fast game, as well as an interesting one. Manager Baxter of the Seminary has received a letter from the manager of the University team stating that his team is in excellent trim, and is playing snappy ball, and the Seminary boys will have to hustle to defeat them.

Coach Kennedy of the Seminary team has had his men out every afternoon, and he states that the team should win, as they are very strong, especially at the bat. The line-up will be published tomorrow.

As the day will be a National holiday a large crowd is expected to attend.

Wear orange and black, and "root" for the Seminary boys. Gainesville has always been noted for its "rooters"—especially in baseball, and it is to be hoped that the enthusiasts have not gotten out of practice.

The same will be called promptly at 3 p. m., and those who attend are assured of an exciting contest, full of interest and fine points.

ARTHUR VOYLE MARRIED.

Was Wedded Friday Evening to Miss Lillie McDonald of DeLand.

The numerous friends of Arthur Voyle, who has been attending Stetson University at DeLand, will no doubt be surprised to learn of his marriage, which occurred Friday evening of the past week.

They arrived in this city Sunday afternoon on a brief visit to Mr. and Mrs. E. E. Voyle, parents of the groom, and after their visit here will return to DeLand, their future home.

The Sun, with other friends, will congratulate Mr. Voyle upon receiving such an accomplished bride, and wish for the happy pair a long and happy wedded life.

COURT WILL CONVENE.

Today Will Open Session of Spring Term—Light Docket in Sight.

Today will witness the opening of the spring term of the circuit court for Alachua county, Eighth Judicial Circuit. His Honor Judge Wills and State's Attorney Calhoun have arrived in the city, and will be present at the opening hour this morning.

From present indications, the session will be a light one, as very few cases remain on the docket to be tried, especially of a criminal nature.

WILL GIVE MINSTREL.

Gainesville Guards Will Put On a Good Show at An Early Date.

Two years ago the Gainesville Guards put on a minstrel show in this city which would have done credit to many professionals. They also visited Micanopy, Waldo and other points, gaining a reputation of which they might well feel proud.

The Guards have decided to give another minstrel show at no very distant date. There is in the rank and file of the company some of the best musical talent in the State, and with the assistance of other talent from the Seminary, it is anticipated that a first-class exhibition can be given.

A meeting has been called at Seminary Hall this evening at 8 o'clock to make arrangements and decide upon a date. Particulars will be given later.
